Electrical

Goatskin leather protectors, for enhanced low-voltage glove life and improved hand safety

- Reinforced protection: ActivArmr® 96-002 protectors are made from premium goatskin leather, enhancing hand safety when conducting electrical work with (or close to) energized components, while offering moderate abrasion, puncture and cut resistance

Improved durability: Designed to be worn over

- Class 0 & 00 electrical safety gloves, these leather protectors can significantly extend wear life

Assured effectiveness: ActivArmr® 96-002 leather

- protectors meet ASTM D120 and EN 60903 standards, for personal protection you can truly depend on

Heightened dexterity: Their leather formulation also

- offers excellent dexterity, for genuinely easy-to-use electrical PPE

Industries

- Electrical
- Industrial
- Automotive
- Automotive Aftermarket
- Manufacturing

Applications

- Energized Electrical
- Electrical
- Maintenance

Key Features

- Robust goatskin leather: Abrasion, puncture and cut resistance
- Protective design: Forelectrical insulated gloves* that last longer
- Compliance to ASTM F696 and EN 388: Assured effectiveness* suitable for wear over Class 0 & 00 electrical safety gloves

Performance Standards & Regulatory Compliance
