

RUBBER INSULATING SLEEVES

Helps protect workers from electrical accidents

Key Features:

- Ergonomically shaped
- Excellent strength & durability
- Supreme feel & flexibility
- Acid resistant
- Ozone resistant

Maximize safety with our Rubber Insulating Sleeves (Linesman sleeves), engineered to provide full arm coverage from the cuff of your rubber insulating gloves all the way to the shoulder.

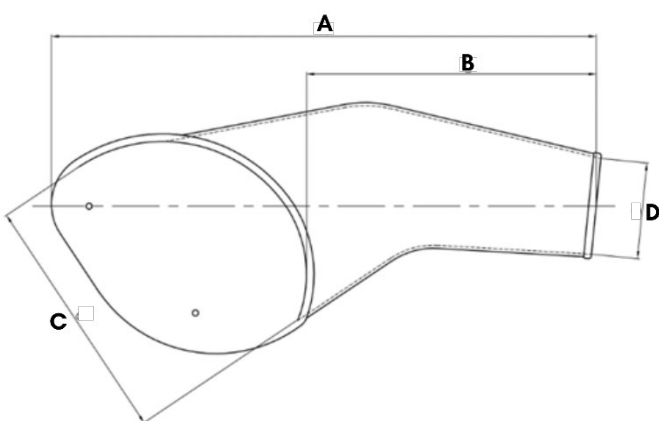

These sleeves are designed to shield arms from accidental contact with energised conductors and equipment, ensuring users stay protected in even the most hazardous environments.

Whether you're working on industrial machinery, power distribution systems, or outdoor electrical installations, our rubber sleeves ensure safety, durability, and peace of mind.

Material	Natural Rubber
Colour	Red and Yellow
Compliance	ASTM D1051-2019

	Class	Size	A		B**	C		D	
RIS2RYECS	2	Small	616	±13	384	317	±13	146	±6
